CHILD OBJECTIVES & INSTRUCTIONS

FY 2017

General Instructions & Objectives Overview

Centers are required to report all client related services in the IPOP client and event data sets. The following information is provided to assist with some specific data set reporting and also to detail the information to be reported manually for those services that cannot be coded in the data set. Please refer to the Data Dictionary for specific service code descriptions.

The restricted mental health funding you receive may be spread to a number of projects serving children with severe emotional disabilities (SED) and some to those children without SED. Please complete the Spending Plan (Form 117) indicating the programs and projects being supported with these funds and the corresponding amounts. Also complete the Child System of Care Application (Form 118). There should be a correlation between the system described in the Application and the programs being funded on the Spending Plan.

Instructions & Objectives for Children's Programs

The following objectives and instructions should be used to determine what information needs to be collected to adequately report on the array of children's services that are provided in the region.

Early Childhood Specialist (All Regions) & HANDS Moving Beyond Depression (Regions 10, 11, 12, 13, 14, & 15)

Please complete and submit with the Plan and Budget application:

- Form 101 –ECMH Project Budget and Financial Report
- Form 114 - ECMH Program Narrative

The Program Narrative should describe program accomplishments from the previous year, additional areas of focus for the coming year, sustainability, and how the program collaborates with the HANDS program. For regions implementing HANDS Moving Beyond Depression (MBD) information about the MBD program collaboration within the CMHC is required.

Therapeutic Foster Care (Regions 2, 3, 4, 11)

Submit using Service Code 27

SAMHSA has indicated that Therapeutic Foster Care is an Evidence Based Practice (EBP) and requires that each state report data on the availability and utilization of this service and the use of this practice. (*Please see "SAMHSA's Definition below*). Centers should submit the implementation data using Service Code 27 (Therapeutic Foster Care).

SAMHSA's Definition of Therapeutic Foster Care (TFC): Children are placed with foster parents who are trained to work with children with special needs. Usually, each foster home takes one child at a time, and caseloads of supervisors in agencies overseeing the program remain small. In addition, therapeutic foster parents are given a higher stipend than traditional foster parents, and they receive extensive pre-service training and in-service supervision and support. Frequent contact between case managers or care coordinators and the treatment family is expected, and additional resources and traditional mental health services may be provided as needed.

Questions about Therapeutic Foster Care may be directed to Christie Penn at (502)782-6183 or Christie.Penn@ky.gov.
